GREEN KEY HOTELS

Good for the customer, good for the world.

We attach great importance to sustainability, so we want to distinguish ourselves by going to the extreme to relieve the earth as much as possible. Because we handle the environment so carefully, we are proud to have achieved the Green Key ecolabel.

Throughout the entire hotel these ecofriendly efforts can be found. There are no plastic cups or other disposable product to be found in the rooms and the extensive breakfast buffet uses eco and organic products. **In addition, we proudly present products freshly prepared by local traders, supporting not only sustainability but also the local community.**

In addition to these visible initiatives for the customer, we also contribute to a more sustainable world in many other ways. For example, we are making efforts in the field of water and energy consumption, and we are committed to sustainable food and mobility.
